## LAURENT BRAUN, OUR CANDIDATE FROM STRASSEN

I am 28 years old and grew up in Strassen. After being elected to the local council in my first local elections, I am running for the CSV in the national elections on the 8th of October.

As a trained Engineer, it is important to me that we base political discussions on facts and that we try to solve the complex problems of our time in a solution-oriented way. One of the biggest challenges that we face is to provide the right conditions for a growing economy, which in turn finances our social systems but which also must protect the environment. Therefore, there is no way around the

further expansion of renewable energy, good waste management and the expansion of the circular economy.

As a young person it is also important to me that young people who start their careers or who are still studying have a chance for their future. The biggest problem is housing, which has never been as unaffordable as it is right now. That's why we have to take all possible measures to build more housing. Furthermore, the existing financial aids must be expanded and be accessible to the entire lower/middle class.

*Our representatives in the municipal council from left to right: Andrew BUTLER (councillor), Tun GIERENZ (councillor), Anne AREND (2nd alderman), Laurent BRAUN (councillor), Nico PUNDEL (mayor).*

## DEAR CITIZENS OF STRASSEN,

We would like to express our gratitude to you for the significant trust you placed in us during the municipal elections on 11th June. We were elected with 30.5%, an increase of 9.5% compared to 2017. This has brought our number of seats from 3 to 5.

We are very pleased with this result. Alongside with our coalition partners, LSAP and ,Déi Gréng', we will work to ensure that Strassen continues to develop in the best interests of its citizens. The focus will be on the people.

The CSV, represented in the Alderman's council by Mayor Nico Pundel and Alderwoman Anne Arend, is committed to maintaining Strassen as a residential community for everyone. Whether it is someone who is among the 62% of non-Luxembourg nationals, socially strong or vulnerable, we aim to leverage the strengths of our multicultural society to preserve and enhance the quality of life.

Strassen will continue to grow. Therefore, the provision of childcare facilities, schools, and ,Maison Relais' must constantly adapt to this growth. Similarly, infrastructure for sports, leisure and culture must be adjusted to meet the changing needs of citizens, especially families.

In executing our projects, we must also consider the burden on nature. The environment has suffered greatly in recent years, and we must take greater care of nature and adopt climate-friendly policies.

Whether young or senior, single or with a family, over the next 6 years, we will work together with you in a citizen-oriented manner with great enthusiasm. If you have any concerns, wishes, or ideas regarding the community, please reach out to us or schedule a meeting, and together we will find solutions.

*Your CSV Strassen*
